

At Coastal Control Products, we believe business is earned in the trenches by solving one problem at a time. We view our relationships with our customers as a partnership and essential to the success of our business.

			
<p>Sensors, Instrumentation, Connectivity, Fieldbus I/O, RFID, Interface Technology, HMI</p>	<p>Industrial general purpose AC drives, Fully regenerative drives, Drive systems, Accessories</p>	<p>HMI, panel meters, protocol converters, Data loggers, RTU, IOT, Ethernet switches, Remote access</p>	<p>Compact and efficient DC power supplies, UPS, redundant modules, IP67 power supplies, Buffer modules</p>
			
<p>Robust machine safety interlocks, Access control, Profisafe, CIP safe, fluid power safety</p>	<p>AC motors, drives, soft starters, motor controls, circuit protection, geared motors, automation products</p>	<p>Sensors, Machine safety products, Laser scanners, RFID/bar code transponders, Machine vision</p>	<p>Switch/NFPA70E rated plugs, Multi-pin plugs, high ampacity plugs, DC plugs, Hazardous location plugs</p>
			
<p>Electrical enclosures (SS and steel), Cabinet systems, Climate control products, Pendant arm systems</p>	<p>Sensors, Instrumentation, Controllers, Machine safety, Fieldbus I/O, Connectivity</p>	<p>Flexible control cable, VFD/servo cable, Fieldbus/network cable, Cable management systems</p>	<p>Industrial racking and storage, Machine safeguarding, Wire cage</p>
			
<p>Mencom Corporation is a leading manufacturer and supplier of top quality Industrial Electric Connectors and automation connectors</p>	<p>Lovato Electric - offers circuit breakers, push buttons, switches separates, digital and energy meters, soft-starter, relay protection, automatic power factor correction controllers, and</p>	<p>Hokuyo specializes in manufacturing optical devices such as laser rangefinders, that offer high performance and reliability</p>	<p>Neugart specializes in planetary gearboxes and custom gearboxes.</p>
			
<p>Engineering and manufacturing world-class fiberglass, polycarbonate, and PVC and instrumentation enclosures.</p>	<p>Multi Cable Transits, Cable Entry Plates & Cable Glands</p>	<p>Larco offers safety and security access technologies for entrances and work areas with the industry's</p>	<p>The worlds best know manufacturer of visual and audible signaling devices</p>
			
<p>manufacturer of the most innovative safety products and predictive maintenance solutions</p>	<p>Paletti is a global producer of innovative extruded aluminum profile solutions and linear</p>	<p>Dynapar is one of the world's leading suppliers of motion control feedback products including encoder resolvers</p>	<p>automated, open cybersecurity platform for your operational technology networks and infrastructure</p>

		 <small>NIDEC MOTOR CORPORATION</small>	
<p>NOARK Electric is a global manufacturer of low-voltage electrical components for industrial applications.</p>	<p>PR Electronics designs and produces signal conditioning (interface) devices for the process industry within temperature. I.S.</p>	<p>specializes and handles motor application products based on "everything that spins and moves,"</p>	

Physical Address
842 Whitesville Road
Moncks Corner, SC, 29461

(843) 899-6300

Mail to Address
PO Box 4726
Pinopolis, SC, 29469

Integration:

- We have partnered with local integrators so that we can help take your BOM to a functioning system. Let us know if we can facilitate your integration needs.

Machine Safety Services:

- Safety Status Check
- Risk Assessment
- Safety Devices Inspections
- Stop Time Measurement
- Safety Trainings
- Commissioning Support
- Safety Concept/Design
- Verification/Validation

Machine Safety Training:

- B11 LMSS™ Licensed Machinery Safety Specialist training course that sets out the key aspects of designing and implementing machinery safety solutions.

Repair:

- We have partnered with several repair service providers. Let us help with repair of your electronic equipment, including HMI, AC/DC VFD, servo motor/drive, etc.

Calibration:

- We have partnered with a full-service calibration lab to offer gauge calibration services on several tools, instruments, transducers, etc. All the lab's standards are traceable through documentation and are auditable.
